Dear Mr [redacted],

Thank you for your interest in Estonian euro coins and for your questions.

The total mintage figures shown on the Eesti Pank website for 2-euro coins include the commemorative coins issued in both circulation quality and special packaging, such as coincards and coin sets. The total number therefore represents the overall mintage approved for each coin design, regardless of the distribution format.

Information on the mintage volumes of individual commemorative coins can be found on the Eesti Pank website at the following address: https://www.eestipank.ee/en/notes-coins/2e-commemorative-coins

Kind regards,
